Additional features

What is e_gatepass ?

- E gatepass is an ultimate Automatic Gate Pass System.
- System is simple to use & no supervisor is required.
- Visitor can simply enter the visiting card & gate pass can be made automatically by using simple touch-screen operation.
- While scanning the card the photo of the visitor is also maintained & printed on the gate pass.
- Visitor can also type the data on touch screen if required.
- The unique feature of the e-gatepass is that it can record both the entry & the exit of any visitor in the premises.
- This enables you to close loop the entry-exit system.
- The data of the visitors can be easily maintained & accessed at a later date.
- This data can also be sent on the web for online communication from site / factory to Head office.
- This system is Web & Lan enabled.
- "Quick show" is available on the web. In 10 min. you can see entire list of the days visitors with photos.
